

Dybuster

Defeating Dyslexia

Prices Dybuster School

Introduction

Dybuster School allows the students and the teachers, special aid teachers, therapists etc. (all together are later referred to as “teachers”) to use Dybuster **both at school as well as at home** without restriction.

The prices are based on the number of student users; usage by the teachers is included in the prices. The license is rented for one year and includes all updates, an always current version and full support.

There exist three license types:

License Type	Usage by
User Based License	Single students and their teachers
Class Room License	Single classes and their teachers
School License	Entire school

The prices are calculated considering the number of students with reading and writing difficulties. Single students with reading and writing disabilities can work with User Based Licenses. To support inclusive class rooms, the User Based License can be extended to Class Room Licenses and School Licenses. With a School License, all students are given the opportunity to improve their writing skills using Dybuster. A Class Room License allows all students of a certain teacher to train with Dybuster. A School License allows all students of the entire school to use Dybuster. A School License is equivalent of a site license that includes home usage.

Dybuster

Defeating Dyslexia

Prices Dybuster School (2)

Price School License

The price of the School License (site license) is based on the school size i.e. the number of students of a school. The number of students is calculated without kinder garden and 1st grade. A limitation to either elementary school or high school is also possible.

School size up to number of students	Annual license fee \$
50	1,000.00
100	1,300.00
150	1,600.00
200	1,900.00
250	2,200.00
300	2,500.00
350	2,800.00
400	3,100.00
450	3,400.00
...	+ 300.00 per 50 students

Prices Class Room License

The license fee is calculated based of the number of classes that use Dybuster. A class is defined as a group of students taught by one teacher in one classroom. Students from different classes can not be combined to use a class room license. If a class can not defined in this way, the Class Room License can not be applied.

Number of classes using Dybuster	Annual license fee \$
free	389.00 per class

Prices Dybuster School (3)

Prices User Based License

The license fee is calculated based on the number of students using Dybuster. The students can be part of different classes and can be coached by different teachers. The user based license can not be transferred from one student to the other during the year.

Number of using students	Annual license fee \$
0 - 5	750.00
6	900.00
7	1,050.00
8	1,200.00
9	1,350.00
10	1,500.00
...	+ 150.00 per student

Pricing Example

At a school with 400 students, 20% of all students suffer from reading and writing difficulties. If the school wants to use Dybuster with these students, it can license 80 User Based Licenses at \$150.00 each, with which these 80 students could work. Instead, the school could also license a School License for 400 students at \$3,100.00 and have all students profit from using Dybuster.

Prices for Courses

To ensure professional use to the best profit of all, we offer to different sets of courses. It is mandatory that a school organizes the participation in one of them.

The courses are offered as **Internal Course** at your school for all involved teachers, special aids teachers, and inclusion specialists:

Organized as a half day of introduction and a half day of continuation:
Costs: \$ 800.00 per half day

Organized as a full day:
Costs: \$ 1,500.00 per day

Alternatively, single teachers can visit a centralized **Certification Course** at Dybuster. The certification course consists of three half days and enables the certified teachers to afterwards instruct their colleagues:

Costs: \$ 900.00 per person including supervision

All prices are in US\$ and include material as well as VAT. Prices as of October 2010.
